

A terminal window with a dark background and light-colored text. The window title bar at the top shows the user 'tamudashe@flow' and the current directory '~/Documents/Spring2020/CS480/abc'. The terminal contains three lines of text: a command to compile and run a Java program, the output of the program, and a new command prompt.

```
tamudashe@flow: ~/Documents/Spring2020/CS480/abc  
tamudashe@flow:~/Documents/Spring2020/CS480/abc$ javac Hello.java && java Hello  
Hello World  
tamudashe@flow:~/Documents/Spring2020/CS480/abc$ |
```
